**Re: Ardoin, Bryaniski      CDC # AN2720      Court Docket: 17FE011113**

Inmate Ardoin is a well-established violent and dangerous felon who should not be paroled. The circumstances surrounding his current conviction and his prior criminal record show that he poses an unreasonable risk of significant criminal activity to the community.

In March of 2017 the victim in the commitment offense came home in the early afternoon to find that her house had been broken into. Her front window was partially open, and a \$300 camera and \$200 in jewelry were taken from the bedroom. Finger prints were recovered from the front window, and when compared came back to Inmate Ardoin. Ardoin was on parole when he committed this crime.

The commitment offense was only the most recent entry in Ardoin's long history of theft. In 2012 he was convicted of both a completed residential burglary as well as an attempted residential burglary. In the attempted burglary Ardoin was caught, along with several other subjects, trying to steal a bike from the victim's backyard. Ardoin and his confederates had broken a window to the home and were observed by law enforcement officers throwing the bike over the property fence to the home. In 2017 Ardoin was convicted of misdemeanor receiving stolen property. In 2016 he was convicted of petty theft.

It's true that residential burglary is not a "violent" offense as described by the Penal Code, making Ardoin technically eligible for potential relief from this board. But that legal distinction belies the terrible danger inherent in the crime of residential burglary. Beyond the profound intrusion the crime involves, it also puts lives in imminent danger. It is an egregious violation of the sanctity of the home. Ardoin has been caught committing, or attempting to commit, the crime of residential burglary three times. He has shown tremendous disregard for the safety of others. He is not worthy of early release, and our community would be put at severe risk if release were to be granted.

As we are given 30 days to respond, and we are not provided with any disciplinary history or any other information aside from the one page notice of parole review, I cannot comment on inmate Ardoin's prison conduct. However, from the record that is available it is clear that inmate Ardoin should not be released as he poses a significant, unreasonable risk of significant criminal activity to the community. Parole should be denied.
